HP DesignJet T and XL Printer series

HP DesignJet T and XL Printer series

High-impact accuracy

These printers are ideal for architectural, engineering, and construction companies (AEC) and geographic information system (GIS) firms. Also, MCAD professional users and workgroups and government agencies. If you need to print, scan, or copy maps, technical drawings, or renderings with precise, accurate line quality and crisp text, be sure to review the specifications on the following pages.

1. Recommended printing volumes based on an average user, but not defining the device's printing capacity.
2. Based on comparison of published speed specifications commissioned by HP and performed by Sogeti in February 2023. HP DesignJet XL 3800 top speed of 6 color D pages per minute compared to top speed specifications of mono and color printers from different manufacturers comparable in terms of price range, speed and market relevance based on their worldwide market share as of February 2023 according to IDC. Further details available upon request.
3. Mechanical printing time. Printed in Fast mode using Original HP Inks.
4. HP Click driver available for Windows 11.
5. HP F40 Folder compatibility is available only in the EMEA region.
6. Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (bond) and Original HP Inks. Actual performance may vary based on a variety of conditions, including but not limited to network configuration.
7. Incorporation of the scheduler is expected to be implemented after November 2024. Integration of an auto on/off scheduler allowing users to automatically set up the turn on or off at predetermined times. This can be set up to align with specific usage patterns, and energy-saving goals resulting in helping lowering energy use.
8. Applicable to select HP printers. Integration of an auto on/off scheduler allowing users to automatically set up the turn on or off at predetermined times. This can be set up to align with specific usage patterns, and energy-saving goals resulting in helping lowering energy use.
9. Applicable to select HP printers. Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT standard for imaging equipment, IEEE 1680.2.
10. Applicable to select HP printers. EPEAT registered where applicable/supported. See epeat.net for registration status by country.
11. Applicable to select HP printers. ENERGY STAR® and ENERGY STAR® mark are registered trademarks owned by U.S Environmental Protection Agency. See energystar.gov for certification status by country.
12. Applicable to select HP ink. UL ECOLOGO® Certified HP 712, 738, 768 DesignJet Inks and 863, 864, 865, 866, 867, 869, 870 PageWide XL Inks meet a range of stringent human health and environmental considerations. For certifications, see www.ul.com/EL and www.ul.com/gg.
